Cyber Monday Jewelry Sale

What is Cyber Monday????

It's the Monday after Black Friday

and it is for etailers what Black Friday is to retailers.

[ABCDEFGHIJKLMNOP](#)

After a nice long Holiday weekend and the crush of Black Friday, people are back at work.
From work they are searching the web for more bargains to help complete their holiday gift
giving needs.

Cyber Monday has been building over the last couple of years as the number of online buyers continue to increase. Even the large well known retailers are not overlooking Cyber Monday.

While there should be plenty of online sales out there we hope you will take some time to browse around our [site](#) and checkout our sales specials.

At 2daysmarketplace.com our sale is already up and our customer care team is ready to assist you. We have many beautiful pieces of jewelry perfect for gift giving on sale, so stop by and make your purchases early.

Happy Holidays!

Black Friday Sale & Shopping

The traditional **Black Friday Sale** is right around the corner now. Many will brave the hordes of shoppers and come home with not only bargains, but bruises they did not bargain for. Pardon the pun.

I for one have not shopped in a store for the Holiday Gift Giving Season in several years. Yet I have managed to give wonderful and creative gifts. Now how did I do this all with out fighting for a parking spot, getting jostled around and finishing with out bruises???

I shop online! I can sit in the comfort of my own home & shop the world for my family, friends and service providers. It is a fact, more and more people are shopping the web for all types of items, not just gifts during the Holiday Season. I know a lot more people this year than last that are shopping on line.

Some large well known stores have cut their staff in their stores and almost eliminated their **bridal consultants** due to the lower cost of selling on the web.

This year there will also be even more web business that are launching

a **Black Friday Sale** as more and more customers are staying home to shop. You may also find etailers are starting their **Black Friday Sales** earlier and extending them longer to get a bigger piece of the sales pie. So, before you run out on **Black Friday** for **Roller Derby Shopping**, check out your favorite web sites to see what they have to offer.

Jewelry Cleaning Tips

Methods of Cleaning

Damp Cloth

Use soft flannel cloth when possible and dampen with warm water. Gently wipe jewelry. This is good for cleaning amber, ivory, jet, opals, pearl strands and other delicate gems.

Mild Soapy Water

Soak your jewelry in a small bowl of warm water with a little mild liquid soap. Allow to soak for a few minutes only! Using a very soft brush, or a cosmetic brush (like the type used to apply eye shadow), brush gently. This works well for cleaning pearls, lapis lazuli, coral, malachite, turquoise and similar stones.

Why Clean My Jewelry?

Antique or previously owned jewelry should be cleaned before the new owner wears it. Dirt, soap scum, grease and skin cells can collect under gemstones and in crevasses of your jewelry increasing the chances of skin irritations.

Soap, lotions and your skin's oils can diminish the brilliant appearance of your jewelry. To maintain the beauty of light reflecting gemstones & CZ's, your jewelry should be kept clean.

Caring for Silver Jewelry

Do not wear your silver in pools that have been treated with chlorine

Clean silver with silver polishing cloths

Avoid using tissue, abrasive mediums and liquid cleaners which

can damage silver jewelry

Store in a safe place, and do not sit any jewelry on counters next to sinks or drains

To help minimize tarnishing, store jewelry in airtight plastic bags or wrap in aluminum foil.

Costume Jewelry

Carefully wipe your jewelry with a clean, soft, damp cloth. When done dry with an absorbent cloth, be careful that it does not get caught in prong settings.

After cleaning, lay out your jewelry to dry before storing.

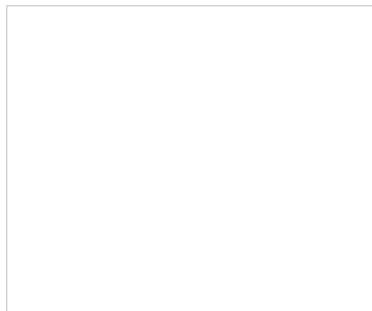

Do not expose to extreme heat

Avoid ultrasonic cleaners

Do not soak in water, Avoid hot water

Do not use cleaning agents or chemicals

Keep away from steam
